

# WE ARE SAVAGE

PRESSKIT // // // //

[WEARESAVAGEOFFICIAL.COM](http://WEARESAVAGEOFFICIAL.COM)

**We Are Savage And Badly Infected (W.A.S.A.B.I.)** is a French rock band from Paris. Their style combines several genres ranging from electro rock to nu-metal.

Their influences include, but are not limited to, Papa Roach, Marmozets, Sonic Boom Six, Enter Shikari, P.O.D., Rage Against The Machine...

The band released in 2012 its first E.P. «**W**» and played over more than forty venues across Paris and its suburbs, since the creation of the band in 2010. W.A.S.A.B.I. is now hitting the road again this year 2016, to promote its debut album «**The Wicked Six**», released in January 2016.

W.A.S.A.B.I. was co-founded by Damien and Charlotte at the end of year 2009. They decided to work together on a musical project, in which the vocals would have a significant part. In 2012, the project took a particular turn, as guitarists Stéphane and Greg joined the band. W.A.S.A.B.I. imposed its unique style as Dany took part as the third singer and keyboardist, adding electro samples and ambiance. The drums were then insured by Vince. Unfortunately, Greg left the band for personal reasons in 2014. But the band stood up and with perseverance and fraternal spirit, W.A.S.A.B.I. welcomed at the end of year 2014, Tom as the new drummer, which placed Vince as the second guitarist. These changes were officialized with the release of W.A.S.A.B.I.'s music video «WAS».

With a solid mix of heavy rock, electronica and melodic singing, W.A.S.A.B.I. should have no problem getting any crowd on their feet.

**Music Review Unsigned**

Un premier album qui représente le renouveau d'un genre, un apport de fraîcheur doublé d'une réalisation qui frôle l'excellence, à l'image d'une pochette qui magnifie l'objet. À découvrir impérativement.

**17/20 - French Metal**

Entre mélodies harmonieuses et bonnes guitares saturées, le groupe conjugue habilement des technicités novatrices sur l'ensemble de ce projet qui se veut très entraînant.

**Live Actu**

On n'a pas fini d'entendre parler de W.A.S.A.B.I. et ça ne fait que commencer. J'ai misé sur eux et ne le regrette vraiment pas !

**18/20 - Hellsong.fr**

Les six membres de W.A.S.A.B.I. réussissent un très bon premier album avec des titres variés et de très bonne qualité. Ils collent parfaitement au style qu'ils défendent...
